

systemtronic datasheet DROP TOP

General description:

Expanding the Drop collection, we present the paper bin that partially hides the waste and its being identified with a vinyl pictogram for its classification in: glass, organic, general, paper, plastic or aluminum. Designed so they can be combined between them.

Made of galvanized steel and painted with thermo-hardened powder paint lacquered in the oven. Includes a galvanized steel inner ring that holds the bag. Can be used in roofed exteriors.

62 liter bin capacity, for garbage bags starting from 50 liters.

Designer: STC Studio.

Year of launch: 2019.

Technical description:

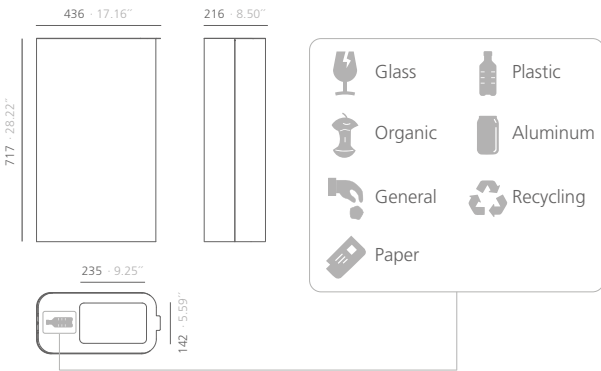

Materials:

Structure: galvanized steel.
Ring: galvanized steel.

Dimensions:

DROP TOP: 436x216x717 mm 17.16x8.5x28.22"
Capacity: 62 liters.

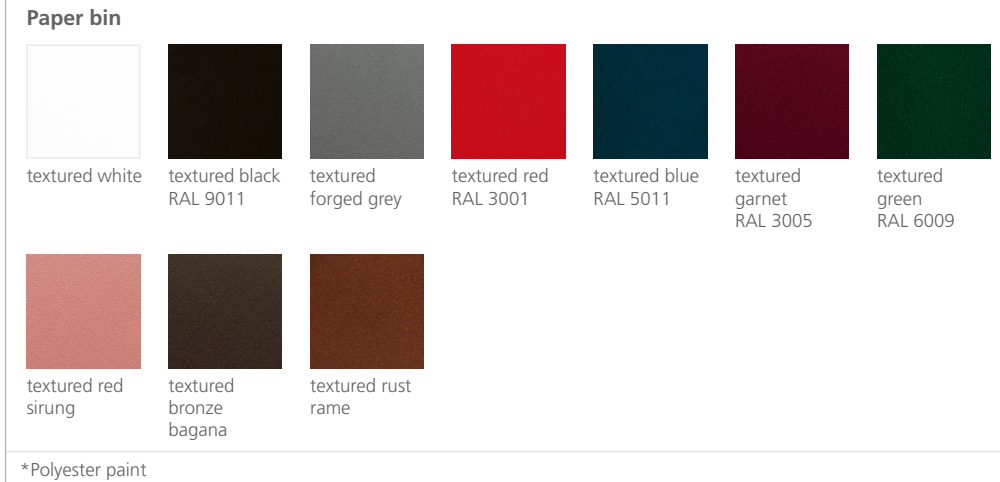

DROP TOP _ 62 liters - litros

Finishes:

Aluminum

Consult for special dimensions or any other modification.

Maintenance:

-Polyester Paint:

For dry dirt (dust), use a damp cloth. For greasy/oily stains (fingerprints), wipe with a sponge with water and dishwashing liquid. Rinse with a damp cloth. Avoid using products containing solvents and/or pure ethyl alcohol.

-Pictogram:

When cleaning the pictograms, avoid excessive rubbing. Clean around them with gentle strokes and avoid applying too much pressure. Do not use abrasive cleaners or strong chemicals that may damage the vinyl material. After cleaning, dry the bin and pictograms with a soft, clean cloth. Ensure there is no moisture left on the surface.

Sustainability:

Manufacturing materials are 100 % recyclable. The used paints do not contain solvents, do not consume water and do not generate emissions or waste. The result is a lower environmental impact.
